Numb. 6262.

Wednesday, November 15. 1721.

Augsburg, November 2.

THE Plague has been less violent for three Days past in this City than for some time before: The head Surgeon of the Infirmary just now reports, that the Distemper is abated half in half. Several Villages in the Comtat continue infected, viz. Bedarides, Sorgues, Chateauneuf, Montea, and Cau-mont. Besides the 25000 Crowns lately given us by the Pope, the Holy Father has ordered 200 Spanish Pistoles a-Week, to be remitted to us by way of France.

Augsburg, Nov. 3. On the 1st Instant one of the Bearers of the Dead was shot in this City, for having fled into the Country; he was taken about two Leagues off, and brought back hither to be executed. Good Order begins to be re-established amongst us, and many poor Families receive Succour, which were lately destitute. It is amazing to think how this City is able to satisfy the Expences it is hourly liable to. The Streets that are inhabited by the ordinary sort of People, are worse treated by the Contagion than those that are inhabited by People of Substance. The Number of People that have died of the Plague in this City to this Day is computed to be 1600.

Hague, Nov. 18. The Placard, setting forth new Precautions to be observed against the Plague, is printed in French and Dutch, in order to be made publick on the 24th Instant, and not before, for Reasons of Interest with Respect to the Merchants. In the mean time, the Contents of this Placard are to be met with every where, but have not any Force or Law till they are published in due Form. The States of Holland are to assemble To-morrow. The Resident of Sweden has notified to this State, by Order from his Court, the Conclusion of Peace between that Crown and Muscovy. The Wind having been at East since this Morning, 'tis supposed that the Earl of Cadogan is sailed from Helvoet-sluys for Great Britain. M. Colster, the States Ambassador at the Court of Spain, has desired Leave to come home.

London, November 15.

The Right Honourable the Lords Commissioners of His Majesty's Treasury having appointed some of the Managers of the Lottery for the Year 1721, to take in the Tickets belonging to the said Lottery, and deliver out Certificates in lieu thereof, payable by the chief Cashier of the Bank, according to the Directions of the Act of Parliament in that Behalf; the Managers so appointed give Notice, that the Blank Tickets have Preference to the Benefits in Point of Payment, and therefore they did begin to take in and enter for Certificates the said Blank Tickets, at their Office in Whitehall, on Tuesday the 14th of November Instant, and so from Day to Day, Sundays and Holidays excepted, from Nine to One in the Forenoon each Day; and that they will take in and enter for Certificates the Benefit Tickets in like Manner, the Day next immediately after the Book to be printed of the Benefits shall be published; And to the End, the Persons entitled to the said Tickets, either Blanks or Benefits, may have a ready and quick Dispatch, the said Managers will take in and enter the said Tickets at three different Seats, viz. All the Blanks within the Numbers beginning 1, and ending 35000, at one Seat; all the Blanks within the Numbers beginning 35001, and ending 700 00, at another Seat; and the entire Number of Benefits, (after Publication of the said Book) at the third Seat. Wherefore the Proprietors of the said Tickets, or their Agents, are desired with their Tickets to bring Lists thereof, adapted for each Seat in a Numerical Order, as near as may be, and to write at the Bottom of every List, the Names, and other proper Descriptions of the Persons to be inserted in the Certificates, which are to be given out in Exchange for the said Tickets, and how many Tickets in the same Thousands or Course of Payment they would have inserted in each Certificate.
